

Lift Off Corns!

Doesn't hurt! Lift touchy corns and calluses right off with fingers

Apply a few drops of "Freezone" upon that old, bothersome corn. Instantly that corn stops hurting. Then shortly you lift it right off, foot and all, without pain or soreness.

Hard corns, soft corns, corns between the toes, and the hard skin calluses on bottom of feet lift right off—no hurt!

Tiny bottles of "Freezone" cost but a few cents at drug stores

PLAN EMBARGOES TO RELIEVE TIE-UP

Rail Executives Consider Means For Coping With Serious Freight Congestion.

Sweeping embargo proposals on certain classes of traffic, are considered by leading rail executives, the most effective means of coping with the chaotic railroad tie-ups at Eastern and middle Western terminals. It was declared by officials of the Interstate Commerce Commission today. By tightening the embargo, officials said, food and supplies most necessary to safeguard the health of the people and interests of industry, can be moved.

Rail executives reported today only slight improvement in the labor situation. Serious labor shortages on all principal lines continue to impair transportation efficiency. Inadequacy of motive power and serious car shortage were other serious factors reported to the commission, as elements difficult to overcome for some time.

Sanction Embargoes. Officials, after a survey of the situation, were prepared to sanction more rigid embargoes in order that the lines now choked with freight may be cleared. Rail executives in telephonic communication with officials here reported that extraordinary efforts are being made by the roads, with their depleted labor forces, to remedy the situation. Some improvement may be expected within the next twenty-four hours through the measures to be taken by the executives.

The railroads, greatly undermanned and suffering for lack of equipment, have not yet determined fully their capital expenditure plans for new equipment, and are awaiting new legislation from Congress. So great are the needs for the railroads that plans to draw upon the \$300,000,000 revolving fund created by the new railroad act are held in abeyance, in the hope that Congress may meet the situation with much larger funds.

Existing high prices of bread and other foodstuffs are small compared to what they will be if something is not done soon to relieve congested freight conditions, Gray Silver, Washington representative of the American Farm Bureau Federation, said yesterday.

Farm Labor Scarce. The added circumstances of a reduced acreage on the farms, scarcity of farm labor and the late spring were pointed to by Silver as causes that "are bound to make the prices of foodstuffs balloon."

Silver said the freight congestion is one of the worst difficulties in the way. Spring supplies, seed potatoes and other seed, fertilizer, and agricultural implements are tied up," he said.

Alarm is felt at the Capitol over the congested situation. It is attributed primarily to the scarcity of rolling stock on the roads, the concentration on Eastern lines of cars belonging on Western roads and clogging of the terminals with cars as a result of the switchmen's strike. The latter circumstances had the double effect of tying up cars en route and preventing the shifting of "freight" cars back West from the Eastern roads.

These conditions are delaying the work of hauling away grain that now fills the elevators in the West. It is said there are 20,000,000 or more bushels in Chicago and 15,000,000 in Minneapolis, with millions more in the country elevators. Harvest is but a few weeks away and within ninety days the 1920 crop will be ready for movement.

"Is it a human being in pain, in distress?" That's all the Salvation Army lassie asks. She cares naught for creed, color or country.

PALMER READY TO JAIL PROFITEERS

Attorney General Announces Change in His Crusade Against H. C. L.

Attorney General Palmer has decided to abandon his policy of "moral suasion" against profiteers in food and clothing. The strong weapon of penal servitude for all who export unjust profits is to be put into play with a will. This was made known at the Department of Justice today, as Attorney General Palmer started in to readjust his machinery for a more vigorous apprehension of greedy vendors of essential commodities.

The Attorney General's initial step was to place general supervision of the profiteering crusade in the hands of Assistant Attorney General Francis P. Garvan. Mr. Garvan has been given carte blanche to stamp out profiteering in clothing, food and other essential commodities.

Mr. Palmer's directions are that the machinery be tightened up at every point, to insure a speedy check of unfair practices among manufacturers, jobbers and retailers. Especially vigorous will be the probe of the present practices of large clothing and food producers.

District attorneys, working quietly in the larger producing centers, already have submitted to Mr. Palmer information which will be made the basis of an extended investigation. The textile manufacturers are to be called upon to justify the enormous profits shown by their earnings reports. Producers of foods in many lines are to be asked to show that the profits made over specified periods are reasonable.

The drive against profiteers is a wide extension of the work done by the bureau which has been probing the sugar situation. Details of investigations now under way are not divulged, but it was admitted that prosecutions in wholesale lots for certain classes of profiteers are scheduled, and for offenses so flagrant that in numerous instances jail sentences will be asked.

This new departure by the Department of Justice, follows an avalanche of bitter criticism against the alleged inaction of the department in its profiteering work. The new crusade is expected to disarm many of these critics, who include many members of Congress, some of them warm supporters of the Attorney General. Complaint from every quarter recently has been directed at the department, which is held responsible for a continuance of high prices, and the fact there has been no abatement in the profiteering evil.

The burden of these complaints is that the Department of Justice in its conferences with the leaders in various groups of producers and manufacturers, has been guided almost wholly in its course by a desire to settle the high price situation through measures of compromise and agreement. Some of these agreements, it is admitted by officials, have acted as a stay to still higher prices.

TRAIN KILLS SISTERS.

MATTOON, Ill., May 14.—When a Big Four train arrived in Mattoon the other day from Loxs Station, a few miles west of Mattoon, an expressman saw the body of a girl on the pilot of the engine. The train had struck and killed Miss Ida Carl, seventeen, and Louise Carl, fifteen, as they were standing on the tracks at Loxs Station watching an interurban.
